

WilHacks Hackathon

What is WilHacks?

A hackathon is an event where students think creatively under a certain time period to program and design a product. Our first time student run hackathon, WilHacks, will span 24 hours and is located at Wilcox High School in Santa Clara. It is open to students of all programming experience and allows them to express their innovative ideas, meet new people, and learn valuable skills. WilHacks will also serve as a platform for new programmers to find their interest in computer science and in the long run pursue it if individual conditions permit.

Logistics of WilHacks

We are anticipating hosting around 125 students for our first time; however this number will only increase in the coming years as we host further hackathons. WilHacks will take place at Wilcox High School (3250 Monroe St, Santa Clara, CA 95051) from October 13, 2017 to October 14, 2017. We plan to start the hackathon around 6 pm on October 13th and end at 7 pm on October 14th.

Why Sponsor WilHacks?

WilHacks will be different from other student-run hackathons in the Bay Area because it will attract a diverse group of students due to its location. Our goal is to attract underrepresented groups of students to the field of computer science and engineering. As a part of the Silicon Valley, the heart of new technological advances and home to the greatest tech giants, it is important for students to gain exposure in a field with a multitude of opportunities. Hosting a hackathon in our community may inspire beginners or even experts to pursue their interests. By partnering with us, you will play a role in motivating these aspiring individuals to strive for success. Your company will make a valuable first impression on these coders, many new to hacking, and influence the languages and tools they

will continue to use in the future. It is a great opportunity for representatives of your company to expand its influence and consumer base.

Information about Wilcox

Our school, Wilcox High School, is nearly a title 1 school. Around 40% of our students have a free or reduced lunch plan. Most students in our school are underrepresented in the STEM field.

How You Can Help

- Sponsors can donate any amount of money directly to the organization.
- They can also sponsor a meal (3 meals during the hackathon)
- Send engineers or mentors to inspire and help the students.
- Provide students with tools to use during the event (hosting, hardware...)
- Give merchandise or prizes.

If you have any questions or if you would like to sponsor us or donate to our school, you can reach us at team.wilhacks@gmail.com.

Sponsorship Tiers

	Bronze \$250	Silver \$500	Gold \$700	Platinum \$1000+
General				
Send engineers and mentors				
Initial API/Product Demo	1 min	2 min	3 min	Keynote
Award Custom Prizes				
Sponsor Table				
Workshop/Tech Talk		1	2	5
Recruiting				
Distribute Recruiting Materials				
Send Recruiters				
Access to Resumes/Githubs				
Interviews During Event				
Branding				

Logo on Website				
Logo on T-Shirt				
Company Banners				
Swag				
Presentation at Awards Ceremony
